# JakartaJS - Online Workshop

JakartaJS is a community of JavaScript users in Jakarta, Indonesia who is very active in doing meetups every month with an average of 100+ enthusiastic application developers.

The community, which met for the first time in 2013, has more than 3,500 members and to date has successfully organized more than 50 meetup activities, paid workshops and has a forum for online discussions.

Usually, JakartaJS routinely does offline meetups every month, but after Covid, JakartaJS began to switch to conducting online events so that they could still be a means of sharing and learning facilities for fellow JakartaJS members.

Online Platform

To host the online workshops, we use StreamYard as our broadcasting platform and it will live on the JakartaJS youtube channel.

JakartaJS Online Calendar

Here are our monthly calendar events. We are currently planning to have a bi-monthly events on the second and the last week of the month, around 19.00 - 21.00 WIB.

Contact Us

If you interested to partner with us in hosting events, please send your inquiries to: jakartajs-organizer@googlegroups.com. We attached our members profile as a reference.

Looking forward to hearing from you. Thank you!
